PROFILE

As a seasoned Frontend Web Developer with a year of hands-on experience, I bring a creative and detail-oriented approach to crafting seamless user experiences. Proficient in HTML, CSS, and JavaScript, I have a proven track record of translating design concepts into responsive and visually appealing websites. My commitment to staying abreast of emerging technologies and my ability to collaborate effectively with cross-functional teams make me a valuable asset in delivering high-quality web solutions.

PROJECTS

PLAY & BET

Description

- Developed a dynamic betting application that offers users an engaging platform to place bets on various sports events.
- Utilized HTML, CSS, Bootstrap, and JavaScript for the frontend to create an intuitive and responsive user interface.
- Designed a modern and visually appealing interface, incorporating Bootstrap for responsive layouts across different devices.
- Implemented the dynamic and interactive aspects of the app using React JS, ensuring seamless user experiences.
- Designed a modern and visually appealing interface, incorporating Bootstrap for responsive layouts across different devices.
- Integrated dynamic features to provide real-time updates on sports events, odds, and live scores, enhancing user engagement.
- Implemented a secure and user-friendly betting system, allowing users to easily place and track their bets on various sports.
- Employed React JS to optimize the app's performance, ensuring smooth and efficient interactions for users.
- Ensured cross-browser compatibility and responsiveness to deliver a consistent experience on different devices.
- Incorporated user feedback mechanisms to continually improve the application based on user preferences and suggestions.

Rentarbo Web

Description

2020-2022

- Spearheaded the development of a robust e-commerce platform, Rentarbo Web, designed to provide users with a seamless online shopping experience.
- Implemented the frontend using a combination of HTML, CSS, Bootstrap, and JavaScript to create an aesthetically pleasing and responsive user interface.
- Leveraged the power of React JS to build dynamic and interactive components, enhancing the overall user experience.
- Developed a user-friendly product catalog with intuitive navigation, ensuring customers can easily browse and find desired products.
- Utilized Bootstrap to implement a responsive design, guaranteeing a consistent and visually appealing experience across various devices and screen sizes.
- Incorporated user authentication features to ensure secure access.
- Developed a user-friendly account management system, allowing customers to track orders, manage preferences, and update personal information.
- Integrated a robust search feature, enhancing user accessibility by enabling quick and accurate product searches.
- Implemented a feedback system, allowing customers to leave reviews and ratings for products, promoting transparency and informed purchasing decisions.
- Utilized React JS for efficient state management, contributing to the optimization of the website's performance.
